Install Zoom

Go to your Downloads Folder
in Finder

Double click on the Zoom Package

Follow the prompts for install
(i.e., click continue)

A Zoom window will appear asking
to join a meeting or sign in

Click Sign in and type the email address
and password you created in the Sign Up step

A new Zoom window will appear.

ALMOST DONE! ONE MORE THING…

Before closing out, find Zoom in your dock
(Should be lower right)

Click and hold on that app in your dock.
Scroll up to Options and over to Keep in Dock
Release and you are ready to remote!
